Engage and Explore Our World Through Discovery Education Social Studies Techbook

Join us to become familiar with the components of the Discovery Education Social Studies Techbook! You will explore the rich media and core content available and gain new ways to effectively integrate resources into your lessons. The focus of the session rests on the 5E instructional model’s “Engage” and “Explore” phases. Through your own investigation and group activities, you will not only learn how to navigate the Social Studies Techbook, but will also begin to create Common Core State Standards’ lessons infused with engaging media and primary sources.
