ENROLLMENT

Who comes to Freedom?

- Students who simply want to get ahead and graduate early
- Students who have fallen behind and want an opportunity to retrieve credit and move ahead without adding additional time to the school day
- Students who seek a personalized small school environment with small classes and a caring community
- Bright underperforming students
- Students who are tired of High School drama and are ready to take responsibility for their education and graduate
- Students whose life situations have required them to need flexible scheduling options
- Students who seek instruction from teachers who utilize computers as one of many instructional tools
- Students who want a change and an opportunity to move forward with their education with the support of a small community
- Students who seek a strong academic program in a caring community that has proved it’s flexibility and endurance through 42 years of serving Albuquerque students.

ENROLLMENT PROCESS AND REQUIREMENTS

Students must be a sophomore or higher in credits to enroll at Freedom High. The enrollment process starts with a placement exam to determine reading and math skills and the need for support classes in these content areas. Students and their parents are then scheduled to come to an interview/orientation where they can further discuss their student’s needs, school policies and determine if the school is a fit for them. Please call for placement exam times and further information or to begin the enrollment process for your son or daughter.

We encourage you to enroll as soon as possible as when we reach our maximum number of students we will start a waiting list. Enrollment requirements:

- Students must be a sophomore and have at least 6 high school credits prior to enrolling at Freedom High.
- Students must take a placement test which is offered every Tuesday. This test is given at 1:30 pm during the school year. Additional times are offered the week after school is out in May, and a week prior to school starting and the first week of the school year. Testing is sometimes scheduled during the summer depending on need.
- Students coming from outside APS please bring a current transcript when you come for the placement test.
- A counselor referral is requested but not required.
- An interview involving the student, parents/guardian and the principal will be scheduled prior to a student being enrolled at Freedom. Interview times are scheduled throughout the summer as well as the school year.

FREEDOM IS EDUCATION; EDUCATION IS FREEDOM
