

[Music]

Okay and so what is that first person  
second person okay Terry builds  
classroom culture better than anyone I  
know she developed students in a way  
that we talked about educating the whole  
child so students learn a ton of content  
in her class but more than anything they  
learn to be great citizens they learn to  
take care of each other and be kind and  
compassionate and that's something that  
Terry lives out every day she takes care  
of her peers she takes care of me  
she's someone that we all trust and go  
to for advice and for care like what did  
he do for us when we started reading  
this story why did why was it important  
for us to have that in third I wanted to  
become a teacher because I wanted to do  
the right thing for kids who struggled  
and just kind of be there for them so  
and I just wanted to make sure that they  
knew that somebody cared about them when  
they were in the classroom the power of  
teaching kindness the power of teaching  
students and people to be responsible  
for one another and to take care of  
things like they're supposed to do I  
know that when we send kids out of  
Terry's class they're ready to be young  
adults in middle school I always told  
them I want them to be good people that  
you know and I guess it's even more  
important today we talked a lot about  
that in here how we're a community and  
we need to take care of each other and I  
also want kids to always know that they  
always have somebody if they if they  
needed me find me I'll be here for you
