VACCINE CLINIC INFORMATION

APS and Smith’s Pharmacies are pleased to offer a vaccine clinic at your school this fall.

Instructions
1. Complete the Smith’s Immunization Screening and Consent Form prior to the clinic, and bring it with you to get your shot(s)

2. Bring your prescription benefits card or cash
   - For employees covered by the APS benefit, bring your Express Scripts card (example at right). Flu, Tdap and pneumococcal vaccine will be offered at no charge for APS members.
   - For employees with insurance outside of APS, bring your prescription benefits card. Flu vaccine will be offered at no charge. Pneumococcal and Tdap vaccine will not be offered on-site; however, after the clinic the Smith’s Pharmacist may be able to help you determine if your benefits cover these vaccines.
   - For employees without insurance benefits, flu vaccine will be offered for $21

3. Smith’s Pharmacists will be offering the vaccines listed below. Review the following recommendations to determine which of the vaccines you may need:

   **Flu** (Standard Dose Injectable Flu Shot)
   Everyone 6 months and older should get an annual influenza shot

   **Tdap** (Tetanus, Diphtheria and Pertussis, also known as Whooping Cough)
   All adults age 19 and older who have not had a Tdap shot before should receive one dose of Tdap. Pregnant women should receive a dose of Tdap in each pregnancy, preferably between weeks 27-36.

   **Pneumonia** (Pneumovax®)
   Adults age 19 to 64 need a Pneumovax® shot if they smoke cigarettes or have any of the following:
   - Heart disease
   - Lung disease, including asthma
   - Liver disease
   - Kidney disease
   - Sickle cell disease
   - Diabetes
   - Alcoholism
   - Weakened immune system (due to cancer, kidney failure, HIV/AIDS, radiation therapy and certain medications)
   - Organ or bone marrow transplant
   - Removal of the spleen
