WHAT IS RE-ENTRY?

A Re-Entry meeting helps students return to school who have been hospitalized. The guardian and student help decide who attends the meeting and it takes place at school. As a team we look at ways we can help the student to make things better and easier for them.

Nursing

Behavioral Health Re-Entry for Students

Albuquerque Public Schools

We support students as they return to school after a behavioral health hospitalization by creating a welcoming space where they, along with their families, guardians, and school staff, can come together to help ease the transition.

What does Re-Entry do?

IMPROVES

- Transition back to school
- Student outcomes
- Relationships with guardian, family, student and school staff
