Athletic Class

The APS Athletic Department extends the definition of an athletic class to include any physical education classes and/or other classes incorporating coursework centered on objectives and activities that are associated with an athletic team/program or individual student-athletes.

Coaches

A coach is defined as any member of a sport specific coaching staff (head, assistant or volunteer). All coaches must meet the requirements outlined in the *Human Resources and Personnel* section in the handbook.

Additional Requirements

Individual schools may impose stricter rules and regulations which must be approved by the School Principal/Athletic Director and made available in writing to student-athletes. These regulations must align with the philosophy and purpose of the interscholastic athletic program as outlined by the individual school.
