Music

00:05

I think that being a part of the community doing one act of kindness kind

00:11

of just fills me with adrenalin to do more acts of kindness and once someone

00:16

sees that, then it's a it creates a chain of events.

00:26

Chantel's focus always in everything she does, she's a very globally minded kid

00:32

and she's the kind of young woman who sees the opportunity to make improvement

00:36

everywhere she goes. Whether it's setting up a book station in the middle of her

00:42

neighborhood for people to trade out books or whether it's teaching people

00:46

about the environment. She's always thinking about how she can put others in

00:52

that situation to engage them and teach them about it. Her heart is always to

00:56

make sure that people understand the opportunities that are there and the

01:01

needs that are there. I want to become a marine veterinarian. I want to be able

01:05

to heal our ocean. Within the classroom she helps every student around her. If

01:13

somebody doesn't understand a concept that I'm going over and she really

01:16

understands it, she'll help them out she'll be like oh don't worry Mrs.

01:19

Shriver I've got it. And that's kind of like how, she is she's very just giving

01:24

of herself, you know, you can see it in her eyes, you can see it in her smile.

01:29

Chantel is probably one of the kindest, most loving, friendliest kids I've ever

01:34

met. She's more of an adult than many adults in a lot of ways. She's incredible.

01:41

She's an incredible person. If you don't know her, as soon as you get to know

01:46

her she is completely unforgettable, because of the love that she gives and

01:49

the dynamic presence that she has. I really want her to be my best friend to

01:55

be honest, because she's so awesome, you know there's those students that you

01:58

just you have a bond with and she's one of those students that you know that

02:02

bond will last forever and ever.
