

# APS . . . to the Point

The last issue (May) featured APS' 53 LEED Certified projects to date. LEED credits are many and varied, including a credit for a project that recycled and/or salvaged at least 50% of non-hazardous construction and demolition materials.

APS' noteworthy new construction recycled projects that diverted construction waste from landfills are featured here.

Del Norte High School

★ New main classroom building

**92.6%**  
recycled!
