

City Nature Challenge

The City Nature Challenge is a friendly competition between urban areas across the world to see which communities can make the most observations of nature. Document wildlife in Bernalillo, Valencia and Sandoval Counties and show the world our amazing biodiversity!

Get out and see some great urban nature while helping scientists collect biodiversity data—and help Albuquerque show the world how much wildlife we have in our great city!

How to get involved

Create an account at [iNaturalist.org](https://www.inaturalist.org) and join our project page:

<https://www.inaturalist.org/projects/city-nature-challenge-2022-abq>

Check for more event information here: <http://www.abqcitynature.org>

Instagram & Facebook: @abqcitynaturechallenge Twitter: @ABQcitynature

Download iNaturalist: Add the free app for Android and iPhone and sign up for the project: City Nature Challenge 2022: ABQ

Observe! April 29 - May 2

Find Wildlife: It can be any plant, animal, fungi, slime mold, or any other evidence of life (scat, fur, tracks, shells, carcasses!) No humans or captive organisms.

Take Pictures of What You Find: Use the iNaturalist app or upload digital photos to the website!

Share Your Observations: Create an iNaturalist account and upload your sightings on the iNaturalist app!

Identify! May 3 - 8: Help to identify what everyone found! Results are announced on May 9th!
