BID NUMBER: 25-075 DNS

BID TITLE: Backflow Products and Supplies

ADDENDUM NUMBER: 1

1. Q: The Attachment A Backflow & Supplies list shows multiple sizes for each line item. For Manufacturer Price, do I state List. and then for discount state % off of list? Also, then % of list APS would pay?

A: See updated Attachment A. Include manufacturer and proposed discount % to be provided.

2. Q: Do vendors have to quote all manufactures and line items to be responsive or will partial quotes be accepted?

A: Submit a % Discount proposal for the products you have available / access to. This Bid is not all or none.

3. Q: The Attachment A bid form has a column for the "APS Price" but only has room for one price. All items listed will have multiple prices, but I don't see a way to add rows to accommodate them. For example, line item 2. Backflow Devices would have a minimum of 11 prices per MFG to cover all the sizes for 1/2"-10".

A: See updated Attachment A. Include manufacturer and proposed Discount % to be provided.

4. Q: The specifications on page 24 are very generic and they don't specify model numbers for products with multiple styles or options. Again, if APS is looking for net prices for products quoted this will make it very difficult to tell if vendors are quoting apples to apples.

A: See updated Attachment A. Include manufacturer and proposed discount % to be provided.

5. Q: With the aforementioned issues regarding the "APS Price" column on attachment A would the district consider removing that column and just using the % Discount column for pricing?

A: See updated Attachment A. Include manufacturer and proposed Discount % to be provided.

ACKNOWLEDGE ADDENDUM WITH SUBMITTED PROPOSAL:

Addenda not signed and returned may consider the BID non-responsive and may be rejected.
