

**ALBUQUERQUE PUBLIC SCHOOLS  
PROCUREMENT DEPARTMENT  
ADDENDUM # 1 FOR BID NO. 12-045GR-SL  
COMMUNICATIONS SERVICES  
MARCH 9, 2012 – 11:00 AM**

February 24, 2012

Please note the following changes/corrections/additions:

- See answers to response to technical questions on the following page.

**Addenda not returned and signed will deem the RFP submission as non-responsive and will be rejected.**

Thank you for your interest in Albuquerque Public Schools

**ACKNOWLEDGE ADDENDUM # 1 WITH RFP SUBMISSION:**

Gustavo Rossell, District Buyer

**REQUEST FOR PROPOSAL  
RFP # 12-045GR-MC  
COMMUNICATION SERVICES**

**RESPONSE TO TECHNICAL QUESTIONS SUBMITTED**

- 1) Would you be able to provide the phone numbers associated with each of these sites listed on this RFP?

*ANSWER: Yes, please see attached.*

- 2) We assume that the following minimum requirements must be met:

a. The bandwidth specified should be full duplex symmetrical.

*ANSWER: Yes.*

b. The network availability end-to-end should be 99.99% or greater and guaranteed in the SLA.

*ANSWER: Yes.*

c. Packet loss across the network should be at a minimum .1%.

*ANSWER: Yes.*

d. Jitter across the network should be at a minimum +or -2ms.

*ANSWER: Yes.*

e. Latency across the network should be at a minimum of 5ms.

*ANSWER: Yes.*

f. 4 hour minimum on-site service repair time.

*ANSWER: Yes.*

- 3) Please clarify the network topology requested:

The RFP states the District is requesting a “Hub and Spoke” topology with two data centers to provide load balancing. Does the District envision all sites appearing at each hub location or is the district envisioning a “most logical” topology with the sites routed to the most efficient hub with a high-bandwidth link between the hubs facilitating the load balancing?

*ANSWER: The District envisions ALL sites appearing at each hub location with either static or dynamic bandwidth availability that would allow for all sites to be supported by one hub, in an emergency situation.*

- 4) Budget requirements:

Does the District warrant the existence of sufficient fund availability to cover the non-discounted portion of the cost of this network upgrade prior to 01 July 2012?

*ANSWER: Yes.*

- 5) Is it possible to receive the RFP document in “Word” format in order to be able to add/edit our responses?

*ANSWER: No. As to keep the integrity of this solicitation as issued.*

6) Pg. 37 please explain meaning of “Type” and “Size”

*ANSWER: “Type” and “Size” are simply meant to designate the kind of circuit or service needed and the bandwidth or quantity of service requested.*

7) Pg. 45 please explain reason for multiple listings for same address

- a. 930 A Oak St
- b. 725 University

*ANSWER: “930 A Oak St” is the address of our Data Center and primary network hub. “725 University” is no longer a valid address. The services listed for 725 University are now installed at 930 A Oak St. The source of the information (Qwest/CenturyLink) was not updated correctly.*

8) Pg. 45 please detail whether “Data” column includes internet

*ANSWER: Yes. Two of the 1000Mbps circuits are providing Internet access, at this time.*

9) Pg. 45-50 please clarify “T1” within voice column: DSS, PRI, CAS trunk etc.

*ANSWER: “T1” (DSS basic; 24 trunks) refers to a standard multi-line voice circuit at 1.544-Mbps, to differentiate it from a single voice line (POTS) or ISDN/PRI services.*

10) Pg. 45 please define meaning of “3-Advanced” within Voice column

*ANSWER: 3-advanced is “DSS advanced” (24 trunks; supports DID)*

11) 5.2.1 through 5.2.3 Authority granted by who, or what body?

*ANSWER: State and Federal licensing to sell those services within the state of New Mexico, USA. See Paragraphs 4.5.1 thru 4.5.3.*

12) Pg. 18 4.3 Please confirm contract period to be one (1) year with four (4) “potential” renewal options

*ANSWER: Yes. Contract will be for one (1) year with four (4) optional 1-year renewals for a total of five (5) years.*

13) Can the district provide inventory of any existing/available conduit from each location to be used for the placement of fiber-optic cable?

*ANSWER: If needed, an inventory can be provided after award. All APS major sites have conduit to the property line that is currently being used for services that will be replaced by this award. If it is determined that new conduits are needed to support future services, APS will fund that construction at the appropriate time.*

14) Has APS completed E Rate application for 2012-2013 funding year?

*ANSWER: Yes. Priority 1 funds have been requested for Internet, voice, and data services – based on expected costs.*

15) Is APS working contractually with an external E-Rate consultant? If so, who is the consultant(s)?

*ANSWER: Yes. E-Rate Central, through a CES contract. Specifically, we are working with George McDonald and Andrew Easley.*

16) 5.2.1 through 5.2.3 Please define what “Authority “ granted by who, or what body?

*ANSWER: State and Federal licensing to sell those services within the state of New Mexico, USA. See Paragraphs 4.5.1 thru 4.5.3.*

17) Pg. 45, Please clarify, there is an Administrative location listed with the name “LEED Silver” at 8800 Eucariz Ave SW. This is the same address of “Helen Cordero Elementary School”, which is listed on page 48. Are these in fact two separate entities? Do they need separate, dedicated data and voice circuits? The “LEED Silver “site is listed as needing 50M of data and POTS while the “Helen Cordero Elementary School” site is listed as needing 30M of data connectivity and ISDN/PRI.

*ANSWER: The two references “Helen Cordero Elementary School” and “Leed Silver site” are to the same facility which is now Helen Cordero Elementary School. It currently has a 30-Mbps fiber MOE connection POTS services. It does not need anything else.*

18) We would like to respond to the voice piece, but would need the below information to do so. Are you able to provide or is there somewhere I can find a list of the NPA/NXX for each of these sites?

*ANSWER: A complete list of all numbers has been provided with this addendum.*

POTS
