Buy American Requirements

The following three documents (hyperlinks) are consistent in defining the Buy American requirements.

1. [Richard B Russell National School Lunch Act](#) (n)1 (A) and (B)
2. [7 CFR 210.21 Procurement](#), (3)d and
3. [SP 20-2006: Procurement questions related to the Buy American Provision](#)

The Richard B. Russell National School Lunch Act provides in Section 12(n) the Buy American provision which requires that school food authorities (SFAs) operating school meals programs purchase domestically produced (grown) and processed foods, to the maximum extent practicable. The Buy American provision was codified in the National School Lunch Program regulations at 7 CFR 210.21(d). A “domestic commodity or product” is defined in the Federal regulations as:

(i) an agricultural commodity that is produced in the United States (U.S.); and

(ii) a food product that is processed in the U.S., substantially using agricultural commodities that are produced in the U.S., 7 CFR 210.21(d).

The language about ‘*substantially*’ using U.S., agricultural commodities is referring to products that are processed in the U.S., comprised of at least 51% domestic ingredients. According to the regulations, a food product must meet a two part test to be considered a domestic commodity or product: (1) the food product must be processed in the U.S.; and (2) the food product must be processed substantially using agricultural commodities that are produced in the U.S. There is no further need to determine whether 51% of a foreign product consists substantially of agricultural commodities that are produced in the U.S., because the product does not meet the first part of the test as it is not processed in the U.S.

Waivers to the Buy American provision are rare. While the Food and Nutrition Service (FNS) sets the Buy American requirements by which States and SFAs must abide, keep in mind that USDA is not a part to the contract between the SFA and its food supplier. It is the responsibility of the SFA to document that there is basis for allowing an exception (waiver); it is unacceptable for exceptions to be granted without substantial evidence that either of the two following situations have occurred:

- 1) The product is not produced or manufactured in the U.S., in sufficient and reasonable available quantities of a satisfactory quality; **and**
- 2) Competitive bids reveal the costs of a U.S., product is significantly higher than the foreign product.

Availability, cost, and quality are factors an SFA must weigh when considering the purchase of non-domestic products. The SFA needs to review current market information to determine if purchasing a specific non-domestic product meets one or more of the exceptions to the Buy American provision.

SFAs are encouraged to include in their bidding process a requirement for certification similar to: “We require that suppliers certify the percentage of U.S., content in products supplied to us. If you are unable or unwilling to make such certification, we will not purchase from you.” Appearing under this statement could be the sentence, “We certify that our U.S., processed ____ have at least ____% U.S., content,” with space for the supplier to fill in the name of the product and its percentage of domestic content. The SFA’s active role in clarifying the Buy American provision to all contractors in the bidding process helps ensure that contractors have a clear understanding of the Federal requirements and the ingredients contained in a product during the manufacturing process do not contain significant foreign content. Additionally, the best tool an SFA has to ensure that the Buy American provision is being followed is its contract with the distributor. If an SFA writes a contract with specific provisions and administers its contract properly, many conflicts or issues with the distributor can be avoided.

It is important for both SFAs and distributors to recognize that the determination as to whether a product meets the requirements of the Buy American Contractual provision rests with the SFA; it is not enough to assume that a product with a well-recognized American brand name or a product supplied by a domestic foodservice distributor complies with the Buy American provision. Distributors/suppliers should, in good faith, facilitate this process and provide the SFA with sufficient information regarding the country of origin for each end product in order for the SFA to make a determination. These efforts will enable distributors and suppliers to provide SFAs with products that meet the specifications of their contract. A brief description of the Buy American Requirement is printed behind the front cover of the Food Buying Guide for Child Nutrition Programs.

This form must be filed even if the contract qualifies as a small purchase or a sole source contract. The Prospective Contractor must disclose whether they, a family member or a representative of the Prospective Contractor has made a campaign contribution to an applicable public official of the state or a local public body during the two years prior to the date on which the Contractor submits a proposal or, in the case of a sole source or small purchase contract, the two years prior to the date the contractor signs the contract, if the aggregate total of contributions given by the Prospective Contractor, a family member or a representative of the Prospective Contractor to the public official exceeds two hundred and fifty dollars (\$250) over the two year period.

Furthermore, the state agency or local public body shall void an executed contract or cancel a solicitation or proposed award for a proposed contract if: 1) a Prospective Contractor, a family member of the prospective Contractor, or a representative of the Prospective Contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or 2) a Prospective Contractor fails to submit a fully completed disclosure statement pursuant to the law.

“Campaign Contribution” means a gift, subscription, loan, advance or deposit of money or other thing of value, including the estimated value of an in-kind contribution, that is made to or received by an applicable public official or any person authorized to raise, collect or expend contributions on that official's behalf for the purpose of electing the official to federal, statewide or local office. “Campaign Contribution” includes the payment of a debt incurred in an election campaign, but does not include the value of services provided without compensation or unreimbursed travel or other personal expenses of individuals who volunteer a portion or all of their time on behalf of a candidate or political committee, nor does it include the administrative or solicitation expenses of a political committee that are paid by an organization that sponsors the committee.

BUY AMERICAN PROVISION FORM – Submit with your Proposal

The Buy American provision supports the mission of the Child Nutrition Programs, which is to serve children nutritious meals and support American agriculture. SFAs are reminded that when funds are used from the nonprofit food service account, procurement transactions for food products on the commercial market must comply with the Buy American provision, whether food products are purchased by SFAs or entities that are purchasing on their behalf.

Some examples of entities purchasing on the behalf of SFAs include: food service management companies, group purchasing organizations, or cooperatives of schools purchasing shared goods and services, or through an inter-entity agreement, etc. If SFA's have difficulty ensuring that food products meet this regulation, FNS encourages a specification to be included in solicitations and contracts that only 100% domestically grown and processed products are approved for purchase.

THE BUY AMERICAN PROVISION SUPPORTS LOCAL AND SMALL BUSINESSES

Using food products from local sources supports small local farmers and provides healthy choices for children in the school meal programs. Purchasing from these entities also supports the local economy. Compliance with the Buy American provision may also encourage SFAs to work with local, or small, minority, and women-owned businesses. Federal regulations require SFAs to take all necessary affirmative steps, when possible, to assure that small, minority, and women-owned business enterprises are used (2 CFR Part 200.321). These entities may also be good sources for products of the United States, or its territories. FNS encourages purchasing food products from local and regional sources when expanding farm to school efforts as well.

LIMITED EXCEPTIONS

There are limited exceptions to the Buy American provision which allow for the purchase of products not meeting the "domestic" standard as described above ("non-domestic") in circumstances when use of the domestic products is truly not practicable. However, before utilizing an exception, alternatives to purchasing non-domestic food product should be considered. For example, SFAs should ask:

- Are there other domestic sources for this product?
- Is there a domestic product that could be easily substituted, if the non –domestic product is less expensive (e.g. substitute domestic pears for non-domestic apples)?
- Am I soliciting bids for this product at the best time of year? If I contracted earlier or later in the season, would prices and /or availability change?

Again, although exceptions to the Buy American provision exist, they are to be used as a last resort. These exceptions, as originally outlined in the 2012 guidance, are:

- The product is not produced or manufactured in the U.S. in sufficient and reasonable available quantities of a satisfactory quality; or
- Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product.

If a SFA is using one of the above exceptions, there is no requirement to request a waiver in order to purchase a non-domestic product. SFAs must, however, keep documentation justifying the exception(s).

Buy American

Contractor must comply with the Buy American Act (7 C.F.R. 210.21), which states that a school food authority purchase, to the maximum extent practicable, domestic commodities or products. Pursuant to the Buy American Act, the term "domestic commodity of product" means; (i) an agricultural commodity that is produced in the United States; and (ii) a food product that is processed in the United States substantially using agricultural commodities that are produced in the United States.
