**REQUEST FOR PROPOSAL  
RFP # 12-028GR-SL  
PRINTING SERVICES ON DEMAND**

**RESPONSE TO TECHNICAL QUESTIONS SUBMITTED**

**1. Questions regarding Quote Request # 1**

- need to know the "page" size ... (looks like 8.5x11 but can't be sure...)
- how many "numbered" pages.... not including the 4 page cover (which is on a different paper)
- what do you mean by folds 1-1/2.....( is the finished size 8.5x11 or 5.5 X 8.5)
- by blind package I'm assuming you mean "generic boxes" ?
- please confirm the 500 quantity

*Amendment # 2 reflects changes made to Quote Request # 1 through 4 clarifying questions regarding, size, numbering, fold type, quantity, et al. Offerors must refer to Amendment # 2 and utilize Quote Request # 1 through 4 when deriving and providing their cost. "Blind package" does mean "generic boxes".*

**2. Questions regarding Quote Request # 2**

- need to know the "page" size
- how many "numbered" pages to the agenda .....numbered pages + the 4 page cover
- your quantity ... 500 ..., please confirm

*Amendment # 2 reflects changes made to Quote Request # 1 through 4 clarifying questions regarding, size, numbering, fold type, quantity, et al. Offerors must refer to Amendment # 2 and utilize Quote Request # 1 through 4 when deriving and providing their cost.*

**3. Questions regarding Quote Request # 3**

- is this just an 8.5x11 brochure, tri-folded? ... why are you asking for a txt weight paper and a cover weight paper? if there are inside pages I will need to know the "page" size and the number of these pages ... also how it binds ... does the cover remain 8.5x11 with the pages stitched into one of the folds?
- if this is just a tri-fold brochure.....what paper would you like me to price it on ?
- please confirm the 1M

*Amendment # 2 reflects changes made to Quote Request # 1 through 4 clarifying questions regarding, size, numbering, fold type, quantity, paper type, et al. Offerors must refer to Amendment # 2 and utilize Quote Request # 1 through 4 when deriving and providing their cost.*

4. **Questions regarding Quote Request # 4**

- finished size to the pocket folder ( usually they are 9x12 w/ 2-4" pockets) this is the standard size that we have a die for it ... if you want another size a special die will have to be made ... keep in mind that a 8.5x11 pocket folder will NOT hold an 8.5x11 sheet of paper that's why they make it 9x12

*Amendment # 2 reflects changes made to Quote Request # 1 through 4 clarifying questions regarding, size, numbering, fold type, quantity, et al. Offerors must refer to Amendment # 2 and utilize Quote Request # 1 through 4 when deriving and providing their cost. No special die will be required for the production of this folder.*
