

Accelerate Progress for Students

Adrienne Sanchez
Executive Director

Dr. Gabriella Duran Blakey
Superintendent

DATE: October 15, 2025

RFP NUMBER: 26-028RR

RFP TITLE: Storage Area Network (SAN) Upgrade and Expansion

ADDENDUM NUMBER: 1

Please Questions and Responses listed below:

1. Please go into more detail as to what kind of special requirements will be needed for CSfC. Will our installers need to have a special clearance to install?

Response: The Installer does not need special clearance for the installation. The organization must have some staff who are, or the ability to get this, in case we have the requirements change. The USDA (our funding source) keeps changing the requirements and we do not want a long term relationship with a vendor that does not have experience dealing with US Government security classifications and clearances.

2. What cloud provider are you replicating up to today? Please be specific on the workloads and strategies currently being used.

Response: We are not currently using a cloud provider, we just want to make sure the ability is there.

3. What protocols are you currently utilizing today with your existing solution? There is mention for support for multi-protocol with the current solution, we are just trying to get the specific protocols being used.

Response: The RFP specifically stated Block, S3, and (object).

ACKNOWLEDGE ADDENDUM WITH SUBMITTED PROPOSAL:

Addenda not signed and returned may consider the RFP non-responsive and may be rejected.
