What circumstance(s) describe(s) the reasoning for this emergency purchase, thus eliminating competition? Please check applicable blocks.

- Function of Government (Explain below)
- Preservation of protection of property (Explain below)
- The health or safety of any person (Explain below)

Explanation:

APS needs to extend the licensing for AIMS/SchoolNet, which is heavily used by district personnel, school faculty and staff. AIMS provides many student and school reports that users rely on to complete state reporting (WEB EPSS is one), analyze graduation status for each student, view and analyze all assessment scores and much more. It is also the system of record for professional development and curriculum and instruction materials that supplement and drive teachers daily instruction. APS is in the process of replacing AIMS with more efficient and effective systems, and although we are very close to rolling these systems out, those implementations are not yet complete.
