

## Snag Exploration

Area: Ground

- 1) Describe what your area looks like.  
(i.e.: colors, shapes, textures, sizes, etc.)
- 2) Describe the evidence of animal life that you see.  
(i.e.: homes, food, tracks, etc.)
- 3) What makes your area important to the ecosystem?

## Snag Exploration

Area: middle trunk (top of head to lower banches)

- 1) Describe what your area looks like.  
(i.e.: colors, shapes, textures, sizes, etc.)
- 2) Describe the evidence of animal life that you see.  
(i.e.: homes, food, tracks, etc.)
- 3) What makes your area important to the ecosystem?

## Snag Exploration

Area: lower trunk (ground to top of head)

- 1) Describe what your area looks like.  
(i.e.: colors, shapes, textures, sizes, etc.)
- 2) Describe the evidence of animal life that you see.  
(i.e.: homes, food, tracks, etc.)
- 3) What makes your area important to the ecosystem?

## Snag Exploration

Area: top trunk (middle branches to top of tree)

- 1) Describe what your area looks like.  
(i.e.: colors, shapes, textures, sizes, etc.)
- 2) Describe the evidence of animal life that you see.  
(i.e.: homes, food, tracks, etc.)
- 3) What makes your area important to the ecosystem?
