

## **PARCC Checklist**

**Support number 830-8080 (Additional staff will be on hand to address issues as they arise)**

### **Configure Firefox-This may be automated in the future.**

- Connect each computer to the network via an Ethernet cable.
- Log-in PARCCUSER account (profile user)
  - Username: parccuser
  - Password: parccuser
- Ensure Firefox is installed
- Install Java version 1.08 for Windows 7 machines
- Browse to <http://systemcheck.parcc.testnav.com/> using Firefox
- Run "SystemCheck"
  - If there is a **Red X next** to any of the items tested, correct the issue.
- Navigate to <http://epat-parcc.testnav.com>
  - Username: "username"
  - Password: "password"
  - Click "Sign in"
  - If you are prompted to allow pop-ups or allow plugins to run, always choose "Allow and Remember." If there is a "don't ask me again" button in any dialog select it.
  - If you are able to successfully navigate through the test, the necessary software has been installed.
  - If you are prompted to save a password, choose the never Remember and/or never ask option.
- Add the following addresses to the popup blocker:
  - Windows directions-Config menu->options->content->exceptions
  - Mac Directions-
  - Turn off all popups, *or* add these to the exception list:
    - testnav.com
    - parcconline.org
    - pearsonaccessnext.com
- Set Firefox to "Never Check for updates"
  - Windows directions-Config Menu->options->advanced->update tab
  - Mac Directions-
